

A. W. TAYLOR HEADS CHARITY SOCIETY

New Officers for the Organization Named at Election Yesterday.

PRaise FOR MAJOR

Mrs. F. F. Stephens Chosen Vice-President—Other Officers Elected.

Prof. A. W. Taylor of the Missouri Bible College was elected president of the Columbia Charity Organization Society yesterday afternoon. The other officers named are: Vice-president, Mrs. F. F. Stephens; treasurer, F. P. Miller; secretary, the Rev. F. J. Bate; attorney, N. T. Gentry. F. P. Miller was appointed chairman of the finance committee; Mrs. C. W. Greene chairman of the friendly visiting committee, and Mrs. A. H. Shepard, chairman of the anti-tuberculosis committee.

In moving the reappointment of D. E. Major as field secretary, G. B. Rollins paid a tribute to the efficiency of his work. This was emphasized also by Prof. W. J. Shepard, who said both the city council and the County Court thought very highly of Mr. Major's work.

A special decisions committee decides cases about which the field agent is doubtful. Judge W. T. Johnson, of the county court, was added to the old committee which is composed of Professor Shepard, Mrs. C. W. Greene and the Rev. F. J. Bate.

The Rev. Mr. Bate has plans for the coming year to increase the number of contributors from about seven hundred to a thousand. The annual report of the organization is to be issued soon.

BANDS MAY PLAY FOOTBALL

Tiger Musicians Will Challenge Jayhawkers for November 21.

Members of the University of Missouri band have organized a football team and have been practicing all week. They will send a challenge to the University of Kansas band for a game to be played in Lawrence just before the Missouri-Kansas game, November 21.

The band eleven has a team which, it is said, averages 170 pounds. The average weight of the line is 180 pounds. Joseph Eliff is the heaviest man on the team, weighing 210 pounds.

Members of the Missouri band believe they will be able to obtain the game and are confident of victory. A game with the Columbia high school or some other Columbia eleven probably will be played soon in preparation for the Kansas game.

TRACK TEAM TO AMES

Will Run in Missouri Valley Cross-Country Race Saturday.

Missouri will be represented in the Missouri Valley cross-country run at Ames next Saturday by J. R. Faucett, V. C. Kline, Pindlay, Lang and Satterlee. Every member of the Conference is expected to be represented by a team.

George Murphy, captain of the Varsity track team, and member of the cross-country team, will not run Saturday. In the run with Ames here October 24 he pulled a tendon in his knee and it was thought best to let him rest so he would be in shape for the spring meets.

ASK INDUSTRIAL COMMISSION

Missouri Government Club Is Framing Such a Bill.

For the past few weeks the Missouri Government Club of the University has been collecting material and information regarding the labor question. For this purpose the club has been divided into committees composed of two members each. Each committee has investigated some particular phase of the labor problem. The club is now ready to frame a bill to establish an Industrial Commission in the state of Missouri. The members of the organization expect to have the bill drawn up by December 1.

Rugs Sent Him From Armenia. G. M. Avakian, a graduate student from Armenia, has a number of fine Persian rugs set him from Armenia by his father.

Prayer Service at M. E. Church. This is the week of prayer at the Methodist Church. The prayer service tonight will be led by Mrs. J. M. Dysart.

FOOTBALL

Yesterday's practice, Prof. C. L. Brewer says, was just about the longest and the best that the Tigers have had this year. All three squads were out on the field at 3 o'clock, as the election caused a holiday in University affairs. Work was begun with a rush and was kept up until after 6 o'clock.

Three hours were devoted to improving the Tiger attack and defense in preparation for the Drake game next Saturday. A long time was spent practicing going down under punts. The Varsity ends got a good workout, tackling the scrub backs who received the kicks.

Tigers Play Drake (1) Right Here at Home.

Then the Tigers played Drake for an hour. To explain, there were three full teams: one being the Varsity squad; one, Drake, and one, Kansas. The second and third squads are trained in the formations of their respective schools. As the Drake game is next upon our schedule, the scrub Drake team was selected for yesterday's scrimmage.

Plenty of ginger was seen in the play on both sides. The Varsity scored four touchdowns, two of them being made by Wikoff after receiving forward passes. Wikoff also put over a drop kick from the 35-yard line.

For the Drake assemblage, the younger Drumm scored six points by racing over the Varsity's goal line after recovering a blocked punt. The scrubs, using Drake formations, made considerable gains through and around the Varsity. No attempt was made to kick the extra point after a touchdown.

Yesterday's scrimmage was the most spirited this year. "Eddie" Klein and "Chuck" Wilson, assistant coaches, could not resist the lure of the play and went in as backs for the scrubs. They tore up the Varsity line on several occasions as if their retirement from active work had made no difference in their conditions, but Klein is limping around this morning and nursing a sore jaw.

Holiday Produces Good Bleacher Crowd.

Yesterday's flock of spectators drew a favorable comment from Professor Brewer. "There must have been three or four hundred of them," he said. "The holiday must have had something to do with getting them out."

On the whole, though, Professor Brewer thinks that the bleacher crowds this year have been smaller than usual.

The gridiron results in the Missouri Valley Conference of last week still leaves Nebraska and Kansas as the strongest contenders for the honors of the year. The performances of last week indicate that the Cornhuskers at present are the strongest in the Valley. Stiehm's machine ran over Ames to the score of 20 to 7. Kansas, on the other hand, met with the first setback of the season—not a defeat but a tie in the game with the Oklahoma Sooners.

Missouri Drake Game Saturday.

The most interesting contest in the Valley, however, Saturday will be between Missouri and Drake at Des Moines. These are the only two Valley teams which will meet that day. Most of the other conference members will be playing minor games. The interest in the tilt in Des Moines is the possibility of Missouri checking the Jayhawkers claims the latter part of the season.

The green team at Missouri is gradually rounding into shape and may figure in the decision of championship honors yet. Saturday, recruited with a light backfield, Missouri humbled the heavy Manhattan Farmers, the first conference victory for the Missouri Tigers. The match at Des Moines Saturday will be one in which the odds are with Missouri. The Drake Bulldogs could

do no more than tie the Washington U. team at St. Louis last week, the score being 7 to 1. Nebraska to Contest With Morningside.

Nebraska will meet Morningside at Lincoln. This game should be an easy one for Nebraska unless there is an accidental upset as happens in football occasionally. One year when Ames had a hammering team of a string of victories, the Morningside College eleven turned tables and humbled the beefy Iowans. There is little chance that the Cornhusker will be caught napping. The Cornhuskers aggregation has a list of four victories so far, over the Michigan Aggies, the Kansas Aggies, Ames and Washburn. A tie was played with South Dakota. Nebraska has yielded only 14 points all the season—7 to Washburn and 7 to Ames.

Other Valley Games Saturday.

Kansas will have more or less a practice game at Topeka with Washburn. However, this Washburn eleven trounced the Jayhawkers a few years ago, and the Jayhawkers in turn trounced the apparently formidable Missouri eleven of that year in the final game. But all odds are with Kansas in the game at Topeka. So far the Jayhawkers have won four games—William Jewell, Emporia, Drake and Kansas Agricultural College contests. Two of these are conference teams. The tie game Saturday with Oklahoma, 16 to 16, is the darkest spot on the Kansas 1914 football list. Oklahoma was the first team of the season to cross the Jayhawk goal line.

Ames, crushed by the Cornhuskers last Saturday, will play a minor game with Cornell College. The match is of little consequence. Ames, like Missouri, Drake, Washington and Kansas Agricultural College has been eliminated practically from the championship race. Ames has been defeated by only two teams this year—Minnesota and Nebraska.

Washington University will meet the St. Louis University eleven in St. Louis. This game is of local interest to St. Louisans who follow closely the fortunes of the Pikeyard and the Billikens. Washington University will meet Missouri a week later.

COUNTY CLUBS ARE BUSY

Officers Are Now Being Elected for the Year.

Everett L. Daken, a junior in the College of Agriculture of the University, is the new president of the Gentry County Club. The other officers are: Vice-president, D. D. Strock; secretary and treasurer, Miss Elizabeth Monroe; sergeant-at-arms, C. F. Grundy; representative in the Ad Club, I. O. Royse. There are more students from Gentry County in the University than ever before. The club membership is 25.

The Bates County club met for the first time this year in the Y. M. C. A. Building, F. W. Atkeson; vice-president, Gardner Smith; secretary, Miss Elma Loeb; treasurer, F. I. Satterlee; reporter, Wendell Atkeson; sergeant-at-arms, H. C. Hirni. The club has twenty-one members. It was decided to have a campfire picnic next Friday night.

The members of the Daviess County club attended a picnic supper last night at Rollins Spring. Dr. and Mrs. W. L. Howard were the chaperons. Mrs. Howard is a member of the club.

H. L. Fontaine Has Appendicitis.

Hugh L. Fontaine, a student in the College of Arts and Science of the University, suffered an attack of appendicitis yesterday morning. Last night he was taken to St. Louis where he will be operated on today. His father, Dr. Bryce Fontaine of Memphis, Tenn., was notified by telephone and is on his way to St. Louis. Fontaine is a member of the Kappa Alpha fraternity.

CLUBS FOR BOYS AND GIRLS GROW

Although Work Is New in Missouri, It Takes Well.

NO JOINING FEE

Best Adapted to Rural and Village Communities.

The work of the boys' and girls' clubs although comparatively new in Missouri, is progressing very rapidly. The work, primarily educational, is best suited to rural and village communities. The subject matter is agricultural and deals with the daily experiences that come into the lives of boys and girls.

Prof. R. H. Emberson will assist in arranging local and county exhibits and contests. As far as possible he will hold special meetings in order to promote the work.

"The schools are charged with spending too much time in studying about things when they should be studying the things themselves," he said. "It is generally conceded that boys and girls do not have an intimate knowledge of their environments. Club work aims to correct this and to interest children in the simple, fundamental facts relating to the social, economic and scientific phases of the life which they are living. A great fault with the schools has been an inclination to think that anything close at hand is too mean and common to be considered as subject matter for instruction."

"The club will be a means of stimulating a school because it will arouse new interest in familiar things and suggest new lines of study. Some Missouri teachers have already testified that it has brought the school and the home into closer relationship and has had a beneficial effect upon the community. Others have said that it has been a means of keeping the larger boys and girls. Hundreds of rural districts are literally calling for constructive workers who with faith and good courage will get down among the common people and work upon the common things."

"The plan for Missouri includes five lines which are, corn growing and judging, tomato growing and canning, sewing, poultry management and stock judging."

"Circulars of information are sent to club members and to teachers. These circulars can be easily understood and followed."

"One thirty-minute period a week should be given to this work. It can be very easily and very properly considered as part of the work in agriculture. Once a month there should be a more formal meeting. Parents should be invited, a program should be arranged and the president and secretary should officiate. The program should consist of compositions telling what has been done, debates on some

phases of the work, a talk on the work by some one who is interested, some remarks by the teachers on the aim of the club and other things that the teachers may wish to include.

"Large envelopes containing folders and paper to be used in the work will be sent free to all members of regularly organized clubs. An achievement button will be given to all members who complete the work and who make a final report of it. It costs nothing to become a member and to carry on the work."

HARTSBURG MURDER INQUIRY

County Officials Are Investigating Woman's Death Again.

E. C. Anderson, prosecuting attorney; E. G. Davis, coroner, and G. B. Sapp, sheriff, went to Hartsburg today to investigate the murder of Mrs. Mildred Mathews, who was slain October 7.
